INSTRUCTIONS to USE the EPABX connections

To connect any extension number from outside, call 2257401 to 2257411, listen to the voice message. If you know the extension number dials the extension number after you hear that 'dial the extension number you wish to call'. In case you do not

Know the extension number hold on for the operator's voice.

In case of any help needed within EPABX jurisdiction, press 9 and wait for the operator's voice.

Call transfer & Conferencing

All users of EPABX lines can use this facility to either transfer and/or conference with another EPABX user line. For call transfer press 'FLASH' button in your handset and press the extension number of the other user line to whom you would like to transfer the call and wait for the ring tone. Then keep the receiver in your handset.

If you want to just use conference facility, after receiving the primary call, press 'FLASH' and the extension number of another user, and after the caller lifts the receiver press 'FLASH' again. By this way, three users would be able to conference using the EPABX facility at a given time.

Call waiting

Call waiting facility is enabled in the EPABX system. The users may take advantage of this facility not to miss any call.

When you are on with a call, you would hear a beep if another person is calling you in the same line. In order to attend to the other caller without disconnecting the previous one, press 'FLASH' and '2'. Once to you are up with Caller 2, again press 'FLASH' and '2' to get back to the first caller.

Call forwarding

This facility is also enabled in our system. Users may take advantage of this facility not to miss any call even if you are away from your chamber or any place of the EPABX line existence.

In order to forward your call, lift the receiver of your handset, press `41` followed the FOUR digit extension number in which you may be available during your absence in your place of work. After pressing the above number, you would here a beep sound thrice (which prompts the facility active). Then keep the receiver in the base.

In order to reverse the call forwarding, life the receiver and press `51` and you would hear the beep sound thrice.

NOTE: If you fail to reverse the call forwarding all your calls would be forwarded to the other number with which you had made this facility active.

Any disorder in the EPABX connections may be brought to the knowledge of the Technician concerned at 6363 or Chairman (Telephone) at 6060.
